

Wealth Building Academy

Building wealth isn't about how much you make, it's about telling your income what to do. If you don't have an organized plan at the end of the month you wonder where your money went.

According to the August 24, 2017 *Newsmax.com* Article – Survey: Nearly 80% of Americans Live Paycheck to Paycheck. How many of your team members are included in that 75%? How does living paycheck to paycheck impact their ability to perform at work?

These are serious issues and questions that can impact profit, the efficiency of your operations, and the security of your company.

[Wealth Building Academy](#) is designed to address these issues by offering your team members a plan to use their income and benefits provided by you their employer to build wealth. Our curriculum consists of ten simple steps that work together to eliminate debt, protect their most valuable assets, and create a plan for their future.

An example of how [Wealth Building Academy](#) can help your team members is my own personal experience. In 2004 after my soccer company project was rejected by the town I was \$ 19,000 in debt to my attorney, I had a car loan, and a mortgage with only \$ 300 in my checking account.

I returned to the insurance business in 2005 and following the steps in [Wealth Building Academy](#), today I have no debt outside of my mortgage, a full emergency fund, retirement savings, and everything I purchase I pay cash for.

The morale of my story is there are no quick fixes, and it takes time, a plan, and discipline to build wealth, but if I can turn my life around and become financially stable and free, so can anyone. The main reason for creating [Wealth Building Academy](#) is to help people feel valued, confident, and successful.

Imagine how much more productive and positive your team will be if they are not worried about their finances.
